I'm thinning out my collection of RC models. No reasonable offer will be refused. I'm not dropping out of RC or anything like that, but I just have way too many models and not enough time or desire to finish them.

- TopFlite 60 size P-40 kit. Framed with cockpit kit, scale prop, spinner, Robart retracts, drop tank. 200
- Topflite T6 60 size. Fuselage framed. 125
- Topflite P51 60 size some work done, True turn spinner. 125
- Hyperion P51 ARF 25 size , glass fuse comes with brushless motor and speed controller 125
- Great Planes F14 Tomcat kit new 125
- Kyosho ME 109 40 size. Cover removed for landing gear repair 70
- Kyosho P40 40 size. New never flown, recovered in olive drab and grey with retracts. 100
- Kyosho P51 40 size. New covered removed, wing modified to accept more scale like gear and doors. Modifications are unfinished. 100
- Joe Saitti 1/3 scales Me 163 Comet. Glass fuselage, wings partially built, formers are in place, includes wing tubes. 250
- Thunder Tiger F8 Bearcat Rare Bear 90 size with scale muffler, partially built. 200
- KMP P38F olive drab, 3rd generation kit, glass booms, center wing sections and pod. Includes retracts and spinners. Has some servo's installed. 425
- Byron P51 with 4 blade prop drive. This plane was in rough shape when I bought it and I've been restoring it back to original condition. New Byron gear. 1000

- TopGun Mig29 ducted fan. Byron fan and OS 91 with pipe retracts and cockpit. Would make a great EDF. 800
- Pica 1/5 scale P51. Fuselage framed has some horizontal stab damage. Includes spinner, cockpit kit and Robart retracts 400. Moki 2.1 new with scale muffler 300
- Pica 1/5 scale P40. Upper half of fuselage was built but a squirrel got in the basement and before I found it ate the back portion of the fuselage. Damage is repairable. Scale spinner and cockpit kit included 200
- Kyosho Vision swing wing ducted fan. Swing wing servo installed just needs servo's, radio and battery 150
- Hangar 9 P47 size Thunderbolt with retracts, never flown, has OS 61 and Trueturn domed spinner installed, needs final build out. 250
- Hangar 9 P51 Blue Nose. Eflite 90 with speed controller, airframe is not finished. Added retractable this needs to be finished. Pacific Aero back mounted scale exhaust and Firepower RC 75 gallon drop tanks. This model can be seen on both websites. 400
- Goldberg Ultimate kit un-built 120
- Sophia 400 gas turbine engine complete system. Good condition with just a few flights on it. 400

If you see something you're interested in call me, no reasonable offer will be refused. I'm never going to finish these models and I'd love to see them finished and flown.

Thanks

John
